Miguel is offline, some internet access problem from home. I know there was an IEPA meeting this AM, and I have a copy of the agenda. I don't know what came out of it.

I haven't been able to reach Miguel. Have you heard any more if you can share? I think there is an IEPA meeting today.

Trying to fill in major missing information gaps, is more like it. Not sure exactly what the state or high management in Region 5 wants us to do. I think Miguel is going to call you to find out when and where you started working on this, since clearly we don't want to go down a time sink rabbit hole and work in conflict with something already going on....

Heard you were looking things over, I can fill you in if desired
Dave
